Due to the discovery of new art a new non-final Office action is being issued.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4, 8, 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Farris et al '313.

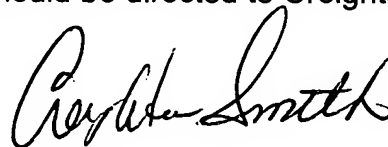

Farris et al disclose in col. 10, lines 1-5, a method of managing variable data such as the called party's number, the billing numbers, time of calls, and duration of calls. In lines 27-40 of col. 10, Farris et al disclose that a server in their system obtains call detail information from a Line Information Database. For claim 11, see col. 16, lines 8-24.

Claims 1-3 allowed.

Claims 5-7, 9, 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
